

JUST ONE WAY

KERRY LIVGREN (Kansas), Seeds of Change

There's a winding road that leads to nowhere
And I've been down each empty lane
Up against the wall, it's the same old story
I've been around the world but I searched in vain
Now I see that I've been such a fool
I was living in the darkest night
At my feet there laid a precious jewel
I burned my bridges and it felt so right, there's

(Chorus)

Just one way, just one way, just one way
From the dark to the light there's
Just one way, just one way, just one way
From the dark to the light there's
One way home

I stood at the feet of a hundred wise men
I tried to live my life according to their way
But I was still in chains, and my eyes were blinded
And it felt so good, but I was lead astray
All my life I looked for something real
Place to place I wandered restlessly
I just needed something I could feel
And when I found the truth it set me free

(Chorus)

Life's a riddle we can never solve
So we invent an answer to the mystery
There's a sacrifice that will resolve
The gate will open by no other key

(Chorus)
