Sheriff Dar Leaf

This is my fourth term as Sheriff of Barry County, Michigan. I have said for many years that every passing generation our constitution gets more and more diluted. It is now to the point that the current college generation recognizes communism more than our own republic. Even the law enforcement community does not get training on the constitution. Instead, we push our law enforcement family through an academy based on "case law" from activist judges.

"We The People" need the tools to restore the republic and "Government by Consent" is a must-read and study guide to attain that goal. So, get your notebook and highlighters out and arm yourself with tools to bring back common-law Constitution. When we do this, the whole world will follow.
