PURPOSE AND HISTORY

The purpose of the committee is primarily humanitarian, protect defend and support the Constitution for the United States of America and to assist the Jury Administrators in securing the rights of the people during troubling times. During normal times the duties of the COS passes all its duties to the elected Committeemen. During troubling times the Committeeman is to take back up the duties of the COS.

Committees of Safety, historically speaking, empowered the people at the grass roots to return control of their local government to the People. The Independent grass roots “County” Committee of Safety and the “County Common Law Grand and Trial Jury Administrations are part of a National plan by the People to take back their government.

The Common Law Grand Jury is working in the Federal Courts exposing the enemies of Liberty both foreign and domestic in an effort to collapse their wall of resistance and take back our Judiciary. The Committees of Safety are needed to fill the power vacuum with “the People”, thereby taking back control of our political process at the grassroots level. Both the County Committee of Safety, a/k/a Committeeman, and the Grand and Trial Jury County Administrations is the process by which We the People consent to government, it is our unalienable right.

In 1774, the various Committees of Safety called for the First Continental Congress. Delegates to that Congress went from town, to county, to Provincial level Committees, before being selected to go to Philadelphia. In Western Massachusetts, Committees of Safety forced the resignations of rouge judges appointed under the Massachusetts Government Act (1774).

The “Committee of Safety” is the very same method that our founding fathers used to take control of their local governments. These “Committeemen” (COS’s) built the nation we inherited and now losing to tyrants today. We the People, through the true elected Committeeman (COS) at the Grass Roots, will take control of our local, state and federal governments by simply requiring them to obey the “Supreme Law of the Land” and thereby perform their Constitutional duties.

GOAL

The goal of the Committee of Safety is to maintain safety in the community by requiring our servants in government to obey the Constitution and the Constitutional Chain of Command during a National Emergency, whereas the Peoples’ Bill of Rights will be protected and secured by our only Elected Constitutional Law Enforcer, the County Sheriff.

FEMA has engaged a national "readiness exercise" under the code name of REX 84 which called for the suspension of the Constitution and the turning of complete control of all local governments over to FEMA while using UN troops to keep law and order during a National Emergency. FEMA's plan leaves out the most important part of rebuilding America, We the People and a Free and Independent Local Government! The end-results of REX 84 is a NWO America without our 1789 Constitution. We the People through the Committee of Safety will prevent this by informing and educating our elected and appointed servants within our local governments. Our government is still intact; it’s just shrouded by the veil of corporatism.

OBJECTIVES

The committee has four objectives:

- 1) Community preparedness concerning chain of command during a local or national emergency
- 2) During a local or national emergency, if there is no Jury administration, the committee of safety is to oversee and insure that all positions of power treat people with compassion and that rights are not violated

- 4) The committee of safety is responsible for the safety of all people within their county.
